The Raptor Boom Arm fully articulates and features simultaneous controls so you can control multiple arm functions at once. More reach, more functionality and an intelligent design supported with high strength materials; this attachment does it all.

MULTIPLE MOWER HEADS ALL ATTACHABLE WITH THE RAPTOR BOOM ARM

ETERRA
ESSENTIAL EQUIPMENT

ADD REACH & MORE JOBS WITH

RAPTOR BOOM ARM

RAPTOR

BOOM ARM

FEATURES

A modular breakaway actuator system not only allows the Raptor to rotate, but it also adds protection. By incorporating a pressure relief system into the actuator, the arm and your machine stay completely protected from unexpected impacts and potential damage.

Use with Sickle Bar Mower (5, 7, 9'), Cyclone
Rotary Mower (48 & 60"), or Sidewinder Flail Mower (36").
Want to attach other heads?

WHAT CUSTOMERS HAVE TO SAY:

"I have used this mover on my JD-35D for last 2 years. It works great, and always takes a beating."

Nick B.

"With the Cyclone mower, I can cut some pretty big branches with ease. It took me about 30 minutes to learn how to use the Raptor Boom Arm."

Roberta W.
